3. Closed now — get on at the next intake

These aren't open, but they're the ones to jump on when they reopen (you'll get flagged automatically in the Monday roster-watch email): - **City of Vancouver** engineering-consultant roster (last awarded Feb 2024; next RFA ~2027) — contact CoV Supply Chain for timing. - **Provincial A&E Multi-Use List** (Citizens' Services / Real Property). - **Surrey · Burnaby · Richmond · Victoria · Kelowna** consultant rosters — KOR's core markets; watch for their next RFA/RFSQ.

4. Do-now

1. **Jul 21** — Oak Bay · **Jul 24** — Fraser Health (if teamed) · **Jul 30** — Camosun + Cariboo.
2. **Dec 31** — Saanich Structural (apply early via Bonfire).
3. **Email Island Health** (Plischke) re: the structural gap; **confirm Interior/Northern** doors.
4. **LA County RAMP** — register for the US arm.
5. **Assign a weekly triage owner** — the Monday email surfaces new rosters; someone has to act on them.

Skip: Alberta Transportation prequal (highway/bridge — not buildings). Fire halls/EOCs also come through each municipality and are often architect-led — same “get on the winning architect’s team” play as schools.
