

Highstreet Ventures & Innascore Developments

Two Kelowna developers Conor flagged — profiles, verified contacts, live pipelines, an **honestly-calibrated read on who holds their structural seat**, KOR's fit, and specific plays + conversation starters for each. Seat verdicts were adversarially re-verified; where the incumbent couldn't be confirmed, it says so rather than assuming an opening.

PREPARED 2026-07-28 · CONTACTS APOLLO-VERIFIED · PIPELINE & SEAT CALLS FROM PRIMARY/MUNICIPAL SOURCES · ALL BANKED TO THE BD BRAIN

BOTTOM LINE — THE PLAY ON EACH

HIGHSTREET VENTURES — REPEAT-BUT-NOT-EXCLUSIVE (NOT LOCKED)

Big, fast-moving rental/condo developer (40th project, 6+ cities, two provinces). Its structural incumbent **R+A Engineering (Vernon)** is confirmed on only its two Interior flagships (Ascent, Horizon) — Highstreet **multi-sources by region**. Don't try to displace R+A on Interior work. **KOR's angle is a second-source / overflow play on the work R+A doesn't hold** — Vancouver Island (Sidney has *no* SE named yet) via KOR's Nanaimo office, plus confirming Woodsdale/Edgeview before assuming they're spoken for.

INNASCORE DEVELOPMENTS — NO PUBLIC SE FOUND (CONFIRM, DON'T ASSUME)

Boutique Kelowna wood-frame mid-rise developer + construction manager. A hard hunt (10+ BC firms, municipal records) found **no structural engineer credited on any project** — that's "unknown, ask Fabian," *not* a confirmed opening. The seat is Fabian's to give only on his **own** builds; on Kapha Living and The Anacapri he's just the construction manager and the SE decision sits with the capital partners (GAV, Kingdom). **KOR's angle is a warm, credential-led approach to Fabian directly** on his own wood-frame + Big White resort work.

WHY KOR — THE FIT (AND THE CREDIBILITY LINE)

- **We're already engineering Okanagan multifamily/rental right now** — Deltek-current: Sutton Crescent Rental (Kelowna), Mill Site Sector 10 (Kelowna, Duke/Holar), 728 Petterson Rd (West Kelowna, Greenstone), 1875 Hwy 1 E & 327 Fortune Dr (Kamloops), Women's Transitional Housing (Penticton). *Not pitching to break in — already here this year.*
- **Their building type is our core.** Both firms build 4–6-storey light wood-frame over concrete podium — no mass timber, no modular. That's KOR's bread-and-butter (dedicated wood-frame team; Beirne's modular/Island depth for the coast).
- **Local + able to scale.** KOR is Kelowna-based (R+A is Vernon) with 40+ professionals across Vancouver/Kelowna/Nanaimo — well-placed for Highstreet's multi-city pipeline and for the Island openings a ~50-person Interior firm can't easily cover.

Highstreet Ventures Inc.

Snapshot	Kelowna multifamily/rental & condo developer · gohighstreet.ca · ~96–100 staff · founded 2005 · HQ 1628 Dickson Ave, Kelowna · main 778-946-6250. "Carbon-free" branding = operational (solar/heat-pump/Step Code), not structural. Apollo-verified
Footprint	Okanagan (Kelowna · Lake Country · Peachland · West Kelowna) + Vancouver Island (Langford · Comox · Parksville · Sidney) + Kamloops + Alberta (Calgary · Grande Prairie). Actively diversifying out of a Kelowna apartment glut (vacancy 6.4%, rents –16%).

Leadership	Scott Butler — CEO (founder, ex-WestJet real estate). <i>Note: former President Christina Wilson left for Wilden (a current KOR client) in Nov 2024 — no longer a Highstreet contact, but a warm lead in her own right.</i>
------------	---

Pipeline & who holds structural

PROJECT	CITY	UNITS	STRUCTURAL	STATUS
Ascent	Kelowna	298	R+A Engineering held	U/C, selling
Horizon	Langford (Island)	160	R+A Engineering held	U/C
Sidney (9972 Third)	Sidney (Island)	75	none named yet (dHK + J.E. Anderson civil) opening	Rezoning 2025–26
Woodsdale	Lake Country	200	unconfirmed confirm	Broke ground May '26
Edgeview	Kamloops	88	unconfirmed confirm	Coming soon
Brooklyn / Willowbrook	Calgary / Grande Prairie	—	unconfirmed (needs APEGA) confirm	Operating/new
5091 Gordon Dr	Kelowna	39	Part 9 — likely no SE n/a	Rezoning

R+A appears on **2 of 9+** projects and is absent from its own portfolio for the rest — so the account isn't sewn up, it's regionally split. The genuine near-term opening is **Sidney** (Island; no SE of record in the live drawing set).

Contacts (all @gohighstreet.ca · Apollo-verified · banked)

Scott Butler	CEO — sbutler@ · the decision-maker for a firm-level relationship
Jeff Gallant	Development Manager — jgallant@ · engineering design/drafting background (per Apollo, early electrical/structural drafting at DIALOG — independent confirmation thin, but a genuine technical-rapport angle)
Eric Delorme	Development Manager — edelorme@ · runs projects → consultant selection
Mike Kristiansen	Pre-construction Manager — mkristiansen@ · coordinates the consultant team; delivered Skaha Shores
Chad Biafore	Manager, Land Acquisitions — cbiafore@ · ex-Colliers Kelowna; earliest-stage relationship
Pino Mancuso / Levi Kelly	VP Operations (property-mgmt side) · Development Coordinator — lower priority for structural

THE PLAY — SECOND-SOURCE / OVERFLOW

- **Lead with Sidney (Island).** No SE named in the current drawing set; KOR's Nanaimo office (Beirne) is right there. This is the cleanest near-term opening.
- **Position as R+A overflow for the multi-city ramp.** Highstreet has 6+ projects live across two provinces; a ~50-person Vernon firm can't cover all of it — KOR is the local, scalable second source (and the Kelowna-based option vs Vernon).
- **Confirm before assuming** Woodsdale (Lake Country) and Edgeview (Kamloops) — ask who's doing structural; don't presume open or R+A.

CONVERSATION STARTERS

- “ Congrats on the Woodsdale groundbreaking — your 40th project. With six cities live at once, how are you resourcing structural across the pipeline?
- “ You're clearly diversifying out of the Kelowna glut into the Island and Alberta — we're set up to move with you across those regions, Kelowna and Nanaimo both.
- “ Loved the \$1M gift to Okanagan College Trades — we run the same EIT / co-op pipeline; values line up.
- “ (To Jeff Gallant) — as someone who came up through design/drafting, you'll get why we obsess over clean, buildable structural docs on wood-frame-over-podium.

Innascore Developments Inc.

Snapshot	Boutique Kelowna wood-frame mid-rise developer + construction/development manager · innascore.com · ~5–10 staff · founded 2016 · 204-1465 St Paul St, Kelowna · main 250-980-6800. Led by Fabian Hohl (Director of Development, owner) + Marlin Boyle (Director of Construction). Apollo-verified
What they build	4–105-unit, 3–6-storey wood-frame (often over concrete podium) — plus a distinctive Big White resort-residential niche (Spyglass, Solitude, The View). Self-perform some carpentry/site; hire out the rest and help clients select consultants.
Live signal	Hiring right now (Site Supervisor + Pre-Construction Coordinator) — a ramping pipeline.

Pipeline — and the important ownership split

PROJECT	UNITS	INNASCORE'S ROLE	WHO PICKS STRUCTURAL
Vita Vernon (Award of Merit)	103	Own developer	Fabian
Savoy on Clement	66	Own/build	Fabian
Big White (Spyglass / Solitude / The View)	—	Own / CM	Fabian / KRYs
The Central · Stockwell · The Hub · Wardlaw · Brongers Place (Vernon)	4–14	Own developer	Fabian
Kapha Living	68	CM only	GAV Developments
Elevate Kelowna	105	Dev/CM	Elevate Kelowna GP
The Anacapri	90	CM only	Kingdom Canada

No structural engineer is publicly credited on any Innascore project — treat that as "confirm with Fabian," not a green light. Target his **own** builds (left block); on the CM-only projects the SE choice belongs to the capital partner, not him.

Contact (Apollo-verified · banked)

Fabian Hohl	Owner / Director of Development — fabian@innascore.com · main 250-980-6800. The decision-maker. Background: German special-ops → urban planner (City of Trier) → site manager → founder; a process/discipline-driven, values-led owner (safety, integrity, professionalism).
-------------	---

THE PLAY — WARM, CREDENTIAL-LED, DIRECT TO FABIAN

- He *is* the decision (on his own builds) — this is a relationship sell to one person, not a committee. A no-drama, rigorous structural partner is exactly his stated values.
- Lead with his **own** pipeline (Big White, Vita-Vernon-type mid-rises, infill) — not Kapha/Anacapri (those seats aren't his).
- The Big White resort work is a real differentiator: snow load, tight ski-in/out grading, staged phasing — KOR can speak to that where a generalist can't.

CONVERSATION STARTERS

- “ Congrats on Vita Vernon's Award of Merit — genuinely nice mid-rise. Who's been doing your structural on the wood-frame builds? (opens the seat question naturally)
- “ You've got a real niche at Big White — those mountain sites are a structural puzzle we love; we'd bring that specifically.
- “ Saw you're hiring a pre-con coordinator — as your pipeline ramps, we'd like to be the structural bench you can lean on locally.
- “ (Rapport) — from urban planning in Trier to building here; we like working with owners who think in systems and process, not lowest-bid.

BEFORE YOU PURSUE — CONFIRM THESE (DON'T ASSUME)

- **Highstreet:** who holds structural on Woodsdale, Edgeview, and the Alberta rentals; and whether Sidney's SE is genuinely still unfilled (it was, per the live drawing set).
- **Innascore:** who Fabian actually uses for structural on his own builds — the single fact that turns "unknown" into a real target.
- **R+A Engineering** (Vernon) is the incumbent to be aware of on Interior work — repeat relationship, not a signed exclusive as far as we can tell.

KOR Structural — Internal · Prepared 2026-07-28 for Conor Murtagh. Contacts Apollo-verified (email confidence 90–95) & banked to the BD Brain; firm pipelines & structural-seat verdicts from developer sites, municipal DP/rezoning records (City of Kelowna, Town of Sidney) and structural-firm portfolios, adversarially re-verified. Seat verdicts are deliberately conservative — "confirm" means unverified, not open. New people/orgs deduped & org facts decomposed to the Brain (Highstreet 71236, Innascore 504241, R+A 77760, Wilden 25). R+A duplicate row 70548 flagged for merge.
