

KOR × Ledcor Kelowna

Barry Murphy opened the door; Elliot Wood walked through it in under 24 hours. This brief arms Jim for the first sit-down with Ledcor’s Interior BC operation.

Prepared 2026-07-17 Source spine Omar ↔ Barry ↔ Elliot thread, Jul 15–17 2026 For Jim DesRoches · Omar Alcazar · Conor Murtagh

 **Monday July 20, 9:30** — Elliot’s office, #700 – 1628 Dickson Ave (Landmark 4), Kelowna — “grab a coffee”
(per Jim’s accepted calendar invite; Elliot’s email text said 10:00 — the invite governs)

- ✓ Verified — primary source / our books
- Web-verified — source + date
- ~ Unverified / ask, don’t assume

HOW THIS DOOR OPENED

Omar met **Barry Murphy** (Ledcor Director of Business Development) at the Ledcor client event on June 24 **PRIMARY** — the same event that opened the Arcadis channel. Omar asked for a Kelowna intro on July 15; Barry forwarded within 20 hours (“obviously you’re the man!”), and **Elliot Wood** replied warmly the same morning, proposing to “discuss opportunities we can support each other on.” Meeting set within 48 hours of the first email. **That pace is a genuine buying signal — Elliot wants this meeting too.**

Standing context from our July 1 Ledcor dossier **OUR BOOKS**: Ledcor Property Investments is an **active KOR client** (~\$560k in won fee proposals since Apr 2024, Telus Living program), but **Ledcor Construction — Elliot’s entity — is the documented expansion gap**: thin Deltek thread, no roster to get on, and Ledcor picks the structural engineer **only on design-build / ECI work**. Relationship entry via BD/precon is the play — this meeting is exactly that.

WHO JIM IS MEETING

PERSON	ROLE	CONTACT	CONFIDENCE
Elliot Wood	Manager, Business Development — Ledcor Construction Ltd., Kelowna. Public record is thin: title verified, background unknown — treat as a blank slate and let him tell his story.	elliott.wood@ledcor.com p 250-491-7102 · c 778-214-6291	PRIMARY APOLLO Hunter SMTP 90 · title matches sig verbatim
Barry Murphy	Director, Business Development — the sponsor of this intro; keep him in the loop / thank him after.	barry.murphy@ledcor.com	APOLLO Hunter 91

In his words PRIMARY

- Serves the **Okanagan + Interior of BC (Kootenays + North)**
- Focus: **institutional, industrial, commercial**
- Clients: **UBC, Interior Health, smaller municipalities, and “more recently BC Housing”**

On the record WEB

- **UBCO Downtown** — Ledcor is builder of Kelowna’s marquee job: 43-storey, ~\$262M, nursing school + ~500 rental units, tallest tower between Calgary and the Lower Mainland; trending 2028
- **Stratosphere Business Park** w/ Beedie (5th Ledcor–Beedie job) — tilt-up industrial near the airport
- Kelowna is a branch office; no public staff roster — who runs precon/ops is unknown

⚠ **Know, don’t raise:** UBCO Downtown has had shoring/ground-movement trouble — damage to neighbouring buildings, a class action, and schedule slip (2027 → ~2028) WEB. Jim should know it exists; let Elliot bring it up. Also: their delivery on UBCO is **CM-as-agent for UBC Properties Trust** — the owner, not Ledcor, holds that structural seat. Don’t pitch for it; ask about spin-off and support scope instead.

KOR’S PROOF POINTS FOR THE ROOM

- **7 active Okanagan projects in the last 12 months** OUR BOOKS — Petterson Rd (West Kelowna, worked this week), 955 Timmins (Penticton, Mission Group), Sadler Rd Rental (Kelowna), Sokana Riverside (Penticton, Kerkhoff), 1405 St. Paul (Kelowna), Nancee Way (West Kelowna), CABAN Lakeshore (Kelowna, Cressey). Omar’s “several ongoing projects throughout the Okanagan” is verified true.
- Those are all **residential developer jobs** — KOR’s Okanagan book doesn’t compete with Ledcor’s institutional/industrial lane. **Complementary, not overlapping.**
- Kelowna office with **three Partners**; Conor Murtagh is the Okanagan principal. Plus the tower résumé (250+ high-rises) that matches a market now building its first true tall building.
- **The UBC-work credentials to lead with** OMAR’S BRIEF — KOR does **peer reviews**, does **performance-based design (PBD)**, and sits on the **LA tall-building committee**. Institutional owners like UBC buy exactly these credentials.
- Already inside the Ledcor family: **LPI Telus Living wins** (John Markulin has the detail), and a working relationship Barry can vouch for. Omar also flags **Rockridge Canyon Clubhouse, Princeton BC** (theatre/multi-use, CEI Architecture) as a past job with Ledcor as builder — **KOR’s role is confirmed in our books** (job 80056, JB-era, 8 work orders) OUR BOOKS; Ledcor-as-builder rests on Omar’s recall — confirm with JB before citing to Elliot 🍷.

- **The big hospital cycle is closed** [WEB](#) — KGH/Vernon Jubilee/Penticton/RIH towers built or finishing. And **Cariboo Memorial Phase 2 is NOT a fresh procurement** — it continues under Graham's existing progressive-DB/CM arrangement with Stantec [WEB IH](#). Don't spend the room on it.
- **Bird Construction is eating the Interior's IPD civic work** [WEB](#) — Parkinson Rec Centre (\$242M) and Kamloops Arena Multiplex (\$140M) both Bird-led. The structural seats are going to **Vancouver heavyweights: Fast + Epp with WSP hold Parkinson** (verified on Fast+Epp's own portfolio) [WEB](#) — not local Interior firms. Ledcor + KOR teaming is the counter.
- **Small-muni design-build is live — and Peachland's structural seat is still OPEN** [WEB Jun-Jul 2026](#) — Chandos won the \$17.5M DB in June, no SE named yet, detailed design just starting. Proof the "GC picks the SE" window is real and current in this market. (Separate play: approach Chandos directly.)
- **UBCO's next building has no team yet** [WEB May 2026](#) — the new \$26–28M recreation facility broke ground ceremonially May 28; design team **not yet public**, final design pending UBC Board of Governors later in 2026. A live window Elliot may know the inside of — Ledcor is already UBC Properties Trust's builder downtown.
- **BC Housing is ramping in the Interior** [WEB ~in development](#) — Bertram Redevelopment + 1144 Pacific (Kelowna), Skaha Assembly (Penticton), 3201 24th Ave (Vernon), two BC Builds projects in Kamloops. Matches Elliot's "more recently BC Housing" word-for-word; statuses unconfirmed — ask him.

QUESTIONS FOR ELLIOT — ASK, DON'T ASSUME

1 Which delivery models is Kelowna actually running — design-build, CM, hard bid?

The whole KOR path runs through DB/ECI where Ledcor picks the SE. Public record shows CM-as-agent (UBCO); his DB volume is the unknown that decides everything.

2 Who runs the Kelowna office day-to-day — ops lead, preconstruction?

No public roster. Names here = the next two coffees.

3 What's the BC Housing pipeline he mentioned — which sites, what model?

"More recently BC Housing" was his own flag; the public list shows 5+ Interior sites in development.

4 What's Ledcor chasing next in the Interior — and is the UBCO recreation facility on the list?

The \$26–28M UBCO rec building has no public design team yet, and Ledcor is already UBC Properties Trust's builder downtown. (Cariboo Ph2 is dead — Graham CM continuity.)

5 On UBCO Downtown — any structural support scope, and what follows it?

Their seat is owner-held; the play is support/spin-off work and the next UBCO building (rec facility broke ground May 2026).

6 What would make a structural partner genuinely useful to his pursuits?

His words from the thread: "opportunities we can support each other on" — let him define the lane, then fill it.

LOGGED & NEXT

- **CRM engagement #375 opened** — Ledcor Construction (org 69671), owner Jim, assigned Omar, region Okanagan, next action = Monday's meeting. Elliot banked to the intel graph (verified contact).
- After the meeting: debrief into the engagement, thank-you note to Barry, and calendar whatever names Elliot gives us for precon/ops.
- Before Monday — **the question for JB** (KOR's role is already ledger-confirmed, job 80056; only Ledcor's side needs his memory):

"John — Rockridge Canyon Clubhouse in Princeton, the Young Life camp job with CEI Architecture (our 80056): **was Ledcor the builder on that?** And if so, do you remember who their site super or PM was?"

Yes → Jim cites it Monday as shared history (and any name JB recalls becomes a relationship edge). No → drop the Ledcor attribution; the job stays a KOR credential either way.

- Conor (Okanagan principal) is the natural continuity owner once the relationship is live locally.

Sources. Primary: "RE: Introduction to Ledcor Kelowna" thread, Jul 15–17 2026 (Omar Alcazar, Barry Murphy, Elliot Wood, Jim DesRoches). Our books: Deltek Vantagepoint (7 active Okanagan jobs, queried 2026-07-17); KOR-Ledcor-Dossier-2026-07-01 (LPI client status, SE-procurement rule). Contacts: Apollo people/match (org-domain verified) + Hunter SMTP, 2026-07-17.
