PURSUE — 18+ months post-rezoning, DP in review, BP targeted Q1 2026. SE almost certainly selected by Perkins+Will during DP preparation. Call Perkins+Will Vancouver to confirm SE status — if locked, reclassify DEAD and build P+W relationship for next Beedie project.

Play: 18 months post-rezoning. SE was almost certainly selected during DP preparation in 2024-2025. Perkins+Will's typical SE partners for Lower Mainland high-rise residential include: Bush Bohlman and Partners, Read Jones Christoffersen (RJC), Fast+Epp, or Entuitive. One call to Perkins+Will Vancouver confirms SE status. If SE is locked: use this as relationship-building for Beedie's broader Port Moody and Lower Mainland pipeline. Beedie, Anthem, PCI, and Woodbridge are all part of the larger 4,000-home Moody Centre TOD consortium — multiple future towers will need SEs.

Broadway Subway Project — SkyTrain TOD Opportunities at 6 New Stations (2027**Opening)****PURSUE**

fresh 2026-06-14 (27d)

Active and accelerating. Multiple TOD projects in rezoning, DP, or early construction. KOR's entry strategy must be architect-led — identify architects winning Broadway Plan tower mandates and position as structural sub-consultant.

Play: Broadway Plan = Vancouver's most active development pipeline in a generation. KOR must be attached to the right architects. Dominant

structural competitors for Vancouver mid-to-high-rise mixed-use: Glotman Simpson, Fast+Epp, RJC, Entuitive. KOR must target architects it already has or can build relationships with who do NOT yet have committed structural partners for Broadway Plan projects. Key architects active in Broadway Plan pipeline: MCMP Architects (Gracorp, PCI), Arcadis IBI Group (130 W Broadway), W.T. Leung Architects (Concord Pacific), Perkins+Will (Westbank/Joyce area), Henriquez Partners. Best displacement window: early rezoning stage (2026) projects where structural engineers have not yet been committed. Target Mount Pleasant, Great Northern Way-Emily Carr, and Arbutus stations — less active TOD but upcoming 2026-2027 as subway opening approaches. Projects where rezoning was just approved (October 2025 mass rezoning) but design team not yet committed are the highest-value targets.
