Stage	Planning		

Two pursuit paths remain open: check APC for EPSB Crystallina Nera K-6 design RFQ, and check ASAP Phase II school list. If ASAP bundle, proactively contact PCL, Graham, Chandos, Ledcor Edmonton for structural sub role.

KOR ANGLE

Two paths: (1) If traditional DBB via APC — check APC for the architect RFQ NOW. Architect selected first, SE follows. KOR Edmonton competes for SE sub under winning architect. (2) If ASAP bundle — SE selected by the winning D/B consortium (typically PCL, Graham, Ledcor, or Chandos). Contact D/B contractors proactively. Year 1 urgency means procurement decision is happening in the next few weeks. ASAP Phase II RFQ for Edmonton + Calgary schools is already posted — Crystallina Nera may be one of the 3 Edmonton schools in that bundle. Ladysmith Primary School Addition URGENT fresh 2026-07-11 (0d)

Where	Ladysmith, BC	Owner	Nanaimo-Ladysmith Public Schools (SD68)
Value	\$15,000,000	Stage	capital-approved

Construction fall 2026. SE appointment still open — Rory Beirne (KOR Nanaimo) to contact KMBR Architects this week re structural sub role.

KOR ANGLE

SE appointment is happening NOW — construction fall 2026 requires structural drawings to be complete in weeks, not months. KMBR Architects is the entry point. Rory Beirne (KOR Nanaimo) is geographically optimal — Ladysmith is 30 km from Nanaimo office. KMBR has used Fast + Epp and RJC on prior SD68 work. Differentiate: KOR Nanaimo local presence + prefab structural integration experience. This is a small project (\$15M) but high velocity — the call must happen this week.
