Every verdict shows its age.

01 · URGENT

Act now

New Housing Building (Park Blocks) URGENT fresh 2026-07-11 (0d)

Where	Portland, OR	Owner	Portland State University
Value	USD 85,000,000 @1.36 (2026-06-02)	Stage	design

Demolition slated Sept 2026 signaling SE decision imminent or made.
GBD Architects outreach pending to confirm structural sub status;
window may be closing.

KOR ANGLE

PURSUE URGENT — demolition starts September 2026 = design/CDs nearly complete. Contact GBD Architects (Portland) immediately to confirm SE status. If SE appointment open, pitch KOR. OR PE license required. Fortis Construction is GC — confirm no captive SE requirement.

Long Beach City College Stadium & Athletic Sports Complex URGENT fresh 2026-07-11 (0d)

Where	Long Beach, CA, CA	Owner	Long Beach Community College District
--------------	--------------------	--------------	---------------------------------------

ACTIVE PROCUREMENT — construction start Fall 2026. DSA submittals required 2026. SE status still unconfirmed; outreach to LBCCD and architects (HKS, Populous, Gensler Sports, HMC) pending.

KOR ANGLE

PURSUE URGENT — \$250M DSA-regulated community college stadium, KOR LA specialty. SE not publicly named. URGENT: call LBCCD Facilities/Bond Program Management immediately to confirm SE status. If unselected: submit qualifications and contact HKS, Populous, Gensler Sports, HMC Architects (typical sports architects) today. If SE awarded: assess DSA peer review or specialty role.

New hospital wing at Beverly & San Vicente Blvds URGENT fresh 2026-07-11 (0d)

Where Los Angeles, CA

Owner Cedars-Sinai

Stage planning

CO Architects is AOR; SE not yet named. HCAI submittal imminent — structural team must be locked before submission. Outreach to CO Architects and Zeke Triana (Cedars-Sinai) pending.

KOR ANGLE

Cedars-Sinai has an immovable 2030 Alquist Act deadline for this 203-bed seismic tower. CO Architects is AOR and controls structural sub selection. Landscape is AHBE|MIG (not structural). CO Architects is also designing the Alden Drive research tower (permitted Jan 2026) — a single CO Architects relationship could unlock SE work on both projects simultaneously. Contact CO Architects healthcare studio principal immediately. Zeke Triana (VP Facilities PD&C) is the owner-side authority. HCAI permit submission would freeze the structural team appointment.

Related Bristol, Santa Ana, Orange County URGENT fresh 2026-07-11 (0d)

Where Santa Ana, CA

Owner Related California

PHASE 1 DESIGN ACTIVE — construction targeted 2026; structural design/permits in progress. SE status unconfirmed; outreach to Related

California OC dev lead pending.

KOR ANGLE

PURSUE URGENT — Phase 1 construction targeted 2026 = SE likely under selection or already selected. Call Related California Orange County development lead IMMEDIATELY. Identify Phase 1 architect and SE status. If SE unselected, submit qualifications. Related is a repeat developer — one relationship covers multiple batch projects.

UC San Diego Pepper Canyon East District URGENT fresh 2026-07-11 (0d)

Where	La Jolla, San Diego, CA	Owner	University of California system (UC Office of the President capital program)
Stage	planning		

Pre-design phase; structural selections expected in 2026 for 2027 construction start. Outreach to Steinberg Hart, Studio Gang pending; KOR registration on UCSD consultant list pending.

KOR ANGLE

Five separate architect packages = five separate SE selection processes. KPFF is the Pepper Canyon West SE (incumbent risk on some packages). BUT with 5 different architects, at least some will use different structural teams. KOR San Diego priority actions: (1) Contact Steinberg Hart San Diego — likely the UCSD incumbent firm and prime candidate for multiple packages; (2) Contact Studio Gang (Chicago office) — their complex geometry requires a sophisticated structural partner, KOR's computational expertise applies; (3) Contact BIG (New York/San Francisco) — they often use local SEs for American projects; (4) Register on UCSD plandesignbuild consultant qualification list. Phase 1 ~3,000 beds starting 2027 = SE selections THIS YEAR.

02 · PURSUE

Open windows

Civic Center Redevelopment (downtown civic core) PURSUE fresh 2026-06-13 (27d)

PURSUE — JPA just formed May 2026. No architect or SE procurement yet. This is the relationship-building window. Engage JPA formation team before procurement begins.

Play: JPA formed May 2026 — no formal procurement has started. This is the golden window: get KOR introduced to JPA leadership before any RFQs are issued. Leverage any existing City of SD or County of SD client relationship for introductions. Simultaneously cultivate relationships with SD civic architecture firms (HKS SD, Tucker Sadler, Delawie, LPA) who are likely to bid on the first packages. 20-year program = multiple structural commissions over KOR's entire planning horizon.

Santa Clara Medical Center (new flagship hospital) PURSUE fresh 2026-06-13 (27d)

PURSUE — HCAI permits filed; IFOA team formation may be complete. Contact DPR Bay Area healthcare preconstruction immediately to determine IFOA team status. Bundle with Sutter Emeryville (3947).

Play: IFOA delivery = SE holds direct Sutter contract, is a peer to HGA (not a sub). HCAI permits filed November 2025 means the IFOA team may already be formed. Contact DPR Bay Area (most likely IFOA GC) to understand team formation status. If team is not yet formed: engage DPR to be included. If team is formed: note SE firm and build Sutter IFOA relationships for Emeryville. Arup SF has prior Sutter IFOA structural experience — they may be the incumbent.

Emeryville Medical Center (new flagship East Bay hospital) PURSUE fresh 2026-06-13 (27d)

PURSUE — early planning phase, IFOA team formation not yet started. Best window for KOR to enter Sutter IFOA relationship. Bundle with Sutter Santa Clara (3946) — one DPR/Arup outreach covers both.

Play: Most seismically complex hospital site in Northern California — Hayward Fault proximity requires HCAI Performance Level 1. IFOA team formation not yet started, meaning KOR can enter this competition without facing an incumbent. This is the more accessible of the two Sutter IFOA projects (Santa Clara team may already be formed). Bundle with Sutter Santa Clara (3946): one DPR Bay Area call covers both. Emeryville structural complexity is the highest in KOR's Northern California pipeline — ideal showcase project.

La Jolla Medical Center Tower 2 (new hospital tower) PURSUE fresh 2026-06-13 (27d)

PURSUE — CEQA filing expected late 2026 signals architect selection is imminent. Contact UCSD Health Capital Program Management and likely GC primes (Kitchell, Rudolph & Sletten) now. Bundle Tower 2 and Outpatient Pavilion as one pursuit.

Play: La Jolla Outpatient Pavilion (OSHDP3, 180K sq ft, 4 storeys) is the immediate companion project to Tower 2. Both will likely use the same architectural and structural team. CEQA filing late 2026 = architect selection is underway right now. Contact UCSD Health Facilities Management and Kitchell/Rudolph & Sletten San Diego to identify the architect of record and structural team status. The 2030 Alquist Act deadline makes this an immovable timeline.

UCLA 901 Levering Student Housing PURSUE fresh 2026-06-13 (27d)

Construction start imminent (Summer 2026). SE almost certainly selected by Mithun during design phase 2024-2025 — not publicly confirmed. One call to Mithun LA resolves SE status immediately.

Play: KPFF is Mithun SE partner on UCSB San Benito (Phase 1 of the concurrent UCSB program). KOR must call Mithun Los Angeles this week and directly ask if SE role is open on 901 Levering. If KPFF is confirmed: reclassify DEAD, pivot to relationship-building for next Mithun/UCLA project. If SE is somehow open: 19-story Type I concrete tower in LA seismic zone is a significant KOR commission. PCL as CMAR creates a secondary path — PCL may be buying out sub-consultants; check if structural is in PCL scope.

Cal State LA Classroom & Faculty Office Building Replacement (replaces King Hall)

PURSUE fresh 2026-06-13 (27d)

CSU CAPITAL PROGRAM — active design or procurement. Bundle with IDs 4181, 4182, 4183.

Play: PURSUE — Top CA target. \$262M CSU seismic replacement. Bundle with IDs 4181, 4182, 4183 in single CSU Chancellors Office portfolio engagement (\$636-653M total). One relationship covers four campuses. DSA experience required.

La Jolla Outpatient Pavilion PURSUE fresh 2026-06-13 (27d)

PLANNING/DESIGN — bundle with ids 3941 and 3940.

Play: PURSUE — bundle with UCSD Tower 2 (3941) and Hillcrest (3940) in single UCSD Health structural relationship. One contact with DPR Construction or UCSD Health Capital Programs covers all three. KOR SD office proximity.

CSU Fullerton Science Laboratory Replacement (Seismic) PURSUE fresh 2026-06-13 (27d)

CSU CAPITAL PROGRAM — active. Bundle with ids 4180, 4182, 4183.

Play: PURSUE — \$200M CSU seismic lab replacement. Bundle with ids 4180, 4181, 4182, 4183 in single CSU Chancellors Office engagement. DSA experience required.

CSU Long Beach Peterson Hall 1 Replacement (Seismic) PURSUE fresh 2026-06-13 (27d)

CSU CAPITAL PROGRAM — active. Bundle with ids 4180, 4181, 4183.

Play: PURSUE — \$190.9M CSU seismic replacement. Bundle with ids 4180, 4181, 4183 in single CSU Chancellors Office engagement. DSA experience required.

CSU Northridge Sierra Hall Renovation PURSUE fresh 2026-06-13 (27d)

CSU CAPITAL PROGRAM — active. Bundle with ids 4180, 4181, 4182.

Play: PURSUE — \$182.6M CSUN renovation in Northridge earthquake zone. Bundle with ids 4180, 4181, 4182 in single CSU Chancellors Office engagement. Northridge seismic narrative = compelling KOR LA pitch.

Central (First Hill) Crisis Care Center — 1145 Broadway (former Polyclinic) PURSUE fresh 2026-06-13 (27d)

A/E PROCUREMENT — likely Q1-Q2 2026. Contact King County DCHS Capital Projects now.

Play: PURSUE — Contact King County DCHS Capital Projects to determine A/E procurement status. If RFQ still open or architect recently selected, engage as structural sub. Adaptive reuse seismic upgrade = KOR WA specialty. Bundle with id=4260.

Loyal Heights Community Center Renovation PURSUE fresh 2026-06-13 (27d)

PURSUE — Seattle SPR community center. WA PE required. Identify winning architect (possibly Miller Hull) and contact for SE sub.

Play: PURSUE — if design team selected, identify winning architect and contact for SE sub. WA PE required. Miller Hull (Green Lake CC architect) may be pursuing Loyal Heights. Check SPR contracts register for design team award.

Los Angeles Department of Water and Power PURSUE fresh 2026-06-13 (27d)

PDB PROCUREMENT — RFI closed late 2024; RFP status unknown. Verify immediately via LADWP portal.

Play: PURSUE — Contact Clark, Hathaway Dinwiddie, Swinerton, and Webcor today to offer KOR as structural/seismic sub. Check LADWP Supply Chain Services portal for JFB PDB RFP status. Historic-preservation seismic retrofit (occupied high-rise) = KOR LA specialty. If PDB team already awarded, assess peer review or specialty role.

Los Angeles Unified School District PURSUE fresh 2026-06-13 (27d)

ACTIVE BOND PROGRAM — Measure US \$9B. Bench procurement expected 2026. Register and submit to RFQ cycle.

Play: PURSUE — Register on LAUSD vendor system. Monitor procurement.lausd.org for open structural A/E RFQs. Pre-team with K-12 architects: HMC Architects, DLR Group, Perkins Eastman, NAC Architecture. Seismic-soundness mandate = direct KOR LA specialty. DSA experience required.

San Rafael replacement hospital PURSUE fresh 2026-06-13 (27d)

PLANNING/EIR — pre-design. SE not selected.

Play: Kaiser Permanente San Rafael replacement hospital — open SE window. EIR stage means design procurement is 6-12 months out. Identify architect and engage now.

SDSU + SDCCD shared STEM academic building (Mission Valley)

PURSUE

fresh 2026-06-13 (27d)

PURSUE. Bundle with 4184. Contact SDSU Facilities and SDCCD Capital Construction. KOR LA/SD office.

Play: PURSUE — joint CSU/SDCCD STEM building, complex structural. KOR LA/SD. Bundle with SDSU Life Sciences (4184).

SDSU Life Sciences Building Phase 2

PURSUE

fresh 2026-06-13 (27d)

PURSUE. Contact SDSU Facilities Planning, Design & Construction. Investigate CSU pre-qualification. KOR LA/SD office. Bundle with 4193.

Play: PURSUE — CSU Life Sciences Phase 2, complex structural (lab loads + seismic + vibration). KOR LA/SD. Bundle with SDSU STEM (4193) for single SDSU Facilities outreach.

SoFi Stadium and Hollywood Park

PURSUE

fresh 2026-06-13 (27d)

ACTIVE PHASED DEVELOPMENT — Kali Hotel Sep 2026; future residential/office/studio phases unawarded.

Play: PURSUE — Contact Wilson Meany Hollywood Park development team Q3 2026. Identify next residential or studio building in design. 2028 Olympics pressure creates urgency for near-term phases. Warm path: HKS (SoFi architect) if KOR has any HKS relationship from Canadian stadium work.

South King County Crisis Care Center

PURSUE

fresh 2026-06-13 (27d)

PRE-DESIGN — site selection in progress. A/E procurement Q4 2026 - Q2 2027.

Play: PURSUE — contact MultiCare Capital Projects now to identify preferred healthcare architect. Get in front of MultiCare before A/E RFQ. Bundle with Central First Hill (id=4259) for King County DCHS dual approach.

Sportsmen's Lodge PURSUE fresh 2026-06-13 (27d)

DESIGN/CD PHASE — 2027 completion target. SE status unknown. Verify within 30 days.

Play: PURSUE — Contact Marmol Radziner or Midwood Investment & Development within 30 days. Confirm SE status. If SE unselected, pitch KOR. Midwood is a growth LA developer — relationship value beyond this single project.

The Spring District PURSUE fresh 2026-06-13 (27d)

ACTIVE DESIGN — Block 15 design review in progress (GGLO). SE not publicly named. Contact immediately.

Play: PURSUE — Contact GGLO Seattle residential practice NOW about structural sub for Block 15 (construction mid-2027) and BRIDGE Housing follow-on. SE not named. Review City of Bellevue permit portal (12343 NE Spring Blvd) for Block 15 SE filing. Contact NBBJ for master plan buildings. KOR WA growth market.

UC Irvine Eddleman Quantum Institute building PURSUE fresh 2026-06-13 (27d)

PURSUE. Plant flag early with UCI lab architects (ZGF, CO Architects, SmithGroup) before RFQ. Bundle with UCI MIND (4158).

Play: PURSUE — lead with quantum-floor vibration credentials (not general structural) to differentiate from KPFF/John A. Martin incumbents. Pre-team with ZGF, CO Architects, SmithGroup before UCI RFQ. Bundle UCI campaign: EQI (4157) + MIND (4158). KOR LA office manages.

UC Irvine MIND building PURSUE fresh 2026-06-13 (27d)

PURSUE. Bundle with UCI EQI (4157). Contact UCI D&CS and pre-team with CO Architects and ZGF.

Play: PURSUE — funded \$80M health research building at UCI. Bundle with EQI (4157) for single UCI campaign. Pre-team with CO Architects (warm path if any KOR relationship) or ZGF. KOR LA office manages.

UC Riverside North District Phase 3 + Residence Hall PURSUE fresh 2026-06-13 (27d)

PURSUE. Contact Phase 2 design team (McCarthy, HMC Architects) to express Phase 3 interest. KOR LA/SD manages.

Play: PURSUE — identify Phase 2 structural SE (UCR permit records). Contact Phase 2 GC (McCarthy) and architect (HMC/Studio/E) for Phase 3 teaming. If Phase 2 SE is KPFF/John A. Martin, KOR can compete via alternative architect team. KOR LA/SD manages.

UC Santa Barbara Ocean Road Faculty & Staff Housing PURSUE fresh 2026-06-13 (27d)

PURSUE. Research UCSB Facilities Design & Construction for project details. Check UC pre-qualification requirements for structural engineers. KOR LA/SD to lead.

Play: PURSUE — UC system housing, seismic zone (UCSB). Confirm UC pre-qualification status for KOR. Contact UCSB Facilities Design & Construction for Ocean Road Housing status. KOR LA/SD office leads.

Violet Avenue / Arts District project PURSUE fresh 2026-06-25 (15d)

Entitled — LACPC approved the all-residential twin-tower scheme June 2026. Pending City Council ratification (Q3 2026). No structural engineer publicly named. SCB El Segundo is architect. No GC or CM announced. Onni is the developer/owner through Onni Violet Development LP. The project is transitioning from entitlement into pre-permit and design development — the structural selection window is opening now. Onni's wider LA pipeline is active: 1000 S. Hill St (54-story, topped out), Times Mirror Square (partially occupied — GSA/Federal Public Defenders signed), Vine Street Hollywood (approved). Violet Street is the newest approval and represents a clean structural slate.

Play: KOR's window is open NOW through Q4 2026. The LACPC approval just cleared; City Council ratification is ministerial; structural engineer selection typically occurs during design development concurrent with permit application. No structural engineer has been named for the

revised all-residential scheme — this is an open seat. KOR's named pitch: (1) Vancouver-headquartered firm — shared business geography with Onni's Kandola family ownership, a stronger soft-sell than most US firms can claim; (2) seismic high-rise residential design for DTLA Zone 4 / SDC D conditions — KOR's core credential for a 30- and 20-story concrete residential stack; (3) proven working ability across the Pacific Northwest and Southern California markets, mirroring SCB's own Seattle-to-El Segundo footprint. The primary named competitor risk is JAMA (John A. Martin & Associates, DTLA) — JAMA is the default structural firm for DTLA high-rise residential and has likely worked on other Onni or SCB projects. To displace JAMA, KOR must reach SCB's El Segundo studio principals and Onni's LA development team before the permit application is filed and before JAMA is informally assumed. The Vancouver angle is KOR's sharpest differentiator — Onni's principal family and head office are in Vancouver, and a Vancouver-based SE is a relationship trust signal no LA-only firm can match.
