

BD Vancouver Updates

Executive Summary — 3 September 2026

Purpose. Recap of the 3 September BD call: what is moving, what was decided, who owes what, and the dates to hold. Supporting detail (contacts, org history, opportunity records, open questions) is in the full synopsis — **see Ian**.

What is moving

- **A seat at the owner's table.** Omar's contact at Colliers is taking owner's-representative roles on the **BC Cancer Vancouver expansion**, the **Delta Aquatic Centre** and a **BCIT lab**, with a say in team selection. She has offered introductions to the municipal recreation director and her private-sector lead. The BC Cancer prime-consultant RFP is already on file in the app.
- **Heather Lands.** After our extra claim got Aquilini's attention, Jim met GBL's Thomas Lee. KOR has Block B; Aquilini has said we get a shot at **Block A** (growing into a large tower) and we are going after **Block C** too. Jim is preparing a "designing without transfers" presentation for Aquilini's and GBL's offices, with JM and Omar.
- **Beedie / Fraser Mills.** Three parcels, three teams, a tryout. JM to confirm whether we are one of the three.
- **Vancouver Island.** Our proposal to BAM (Ben Smith, ex-Starlight) for Trillium's seniors housing produced a warm intro to **Continuum Architecture** in Victoria, who appear to hold most of that developer's work. Rory to follow up.
- **Stantec.** We are now on Stantec's qualified-supplier list. Omar and Islam will pitch KOR to Stantec's Vancouver structural group as specialty and overflow support, the way we did with DIALOG in Edmonton.
- **California.** A US\$1M three-tower proposal in San Diego turned out to be leverage against an incumbent; a wood-frame RFP goes in this week. MVE (Irvine) responded well to the AI demo and has asked for updated insurance; visit around the LA Tall Building Conference in November.
- **Market read.** Concrete high-rise is in a holding pattern; Rize's Cambie and Marine tower is stalled on offshore capital. "Hopefully next year" is what everyone is hearing.

Decisions

1. Health-sector architect outreach runs from **one coordinated target list**, one owner per contact. Ian prepares the list and talking points.
2. **Seismic assessments and change-of-use work** (office to hotel or residential, S3 bylaw thresholds) become a promoted service line. Quote the report only; the upgrade work follows. Rory and Ian put it on the website and LinkedIn; Omar raises it with Colliers as the thing we can do for them.
3. The Stantec pitch belongs to **Omar and Islam**.
4. **Omar becomes gatekeeper** of inbound opportunities in the app. Ian gets Jim onto the current build so the Teams spreadsheet can retire.

Dates to hold

DATE	WHAT	WHO
10 Sept	Perkins&Will client-appreciation party. No invite yet; Omar, Rory, Jim and JM each working a contact	all
11 Sept	Lunch with Mike Alivojvodic, Chris Dikeakos Architects	Omar, Jim
week of 8 Sept	Omar takes the EGBC seismic retrofit course, the gate to the K-12 seismic list	Omar
late Sept	Calgary trip; Islam books the meetings, JM reaches Anthem and GGA directly	JM, Islam

DATE	WHAT	WHO
1 Oct	Graham client-appreciation night, Georgia Hotel; Conor has one invite and is after two more	Conor
before Nov	Fraser Health list closes; be ready for the "you're on" notice	JB
Nov	LA Tall Building Conference; visit MVE in Irvine	Jim, JM

Owner by owner

- **Omar:** the Colliers introductions; NDY seismic-restraint referrals; the office-to-hotel seismic assessment (NDA, drawings, report fee) and the same offer to the Coal Harbour hotel developer; Stantec with Islam.
- **Jim:** the "no transfers" presentation; lunch with Giovanni at Aquilini; San Diego RFP; the CDA lunch and a cold call for the second Mike.
- **JM:** Fraser Mills tryout status; Gwyn Vose at Arcadis; a principal at MCM; Calgary; the Kelowna architect intro for Conor; call Brad Burnett at ITC.
- **JB:** Bosa lunch with Colin via Robert, October; Solterra one-on-one with Gerry Nichele this week or next.
- **Rory:** Continuum Architecture; the conversions blurb; Perkins&Will invite via Ike.
- **Islam:** KRA's Vancouver team; Stantec with Omar; JM's Calgary meetings.
- **Conor:** Graham night; Lauren at Arcadis Kelowna for the three developer intros; Mission Group's departed contact.
- **Ian:** the architect target list and talking points; the events list; Port Authority recon; Island intel and Continuum contacts to Rory; Jim onto the app; Omar set up as gatekeeper; this recap.

Full synopsis with contacts, org history, the app's existing records and fifteen open questions: see Ian.
