

KOR Structural - California Dossier

Executive top-sheet over the full CA library | KOR Structural - Business Development | 19 Jun 2026 | INTERNAL

Bottom line

- KOR is a San Diego structural incumbent with a thin-but-real foothold across the rest of California, and a defensible identity no other firm in the state combines: a Vancouver-rooted, seismic-led, woodframe-fluent SE that follows Vancouver developers into CA and out-competes capacity-stretched incumbents on responsiveness. Growth is developer/architect-relationship-led - ride warm relationships into open seats, not cold pursuit - anchored by 9 tracked SE seats + 8 verified decision-makers already in hand. Near-term revenue: SoCal (SD incumbency + OC's open-seat glut + the LA retrofit lane). NorCal is a patient relationship build led by Holland.

1. The verified footprint (Deltek spine)

- San Diego is the franchise - ~117 of 127 CA projects; deep downtown high-rise incumbency (Bosa, JWDA, Holland, Murfey, Cast).
- LA is near-greenfield (~10 projects, recently active: 495 Hartford / Intergulf, 674 Catalina).
- Orange County ~ 0; NorCal ~ 2 (Bosa SF dormant + DBRDS Sacramento) - relationship-genealogy markets, not project bases.
- Licensure is NOT the constraint - KOR holds CA SE licensure (John Markulin, PE/SE) and is SEoR on completed CA towers (The Lindley, 6th & Palm). The constraint is depth + DSA/HCAI track record, not entry.

2. The competitive story

A fellow Vancouver SE - Glotman Simpson - is riding KOR's own Vancouver-developer channel into CA (holds Bosa Pacific Gate / Andia SD, MVE Ritz-Carlton Newport, Westbank San Jose). But KOR is not displaced - it's a 20-year Bosa co-incumbent (Evolution / Calgary, Halifax & Willingdon / Burnaby, The Grande SD). The two incumbents KOR contests are both capacity-stretched: Glotman (90 staff spread across Senakw 6,000u + Brentwood 4,200u + CA) and Nelson Structural (11-person SoCal shop running a \$500M+ NorCal masterplan on a co-SE crutch). KOR's wedge everywhere = the dedicated, principal-led, available alternative.

3. The five-metro board

Metro	KOR position	The #1 play
San Diego	Incumbent	Bosa as 20-yr co-incumbent (1st & Island restart 2027-28) + convert Kennedy Wilson on the Lindley credential
Orange County	Greenfield, biggest open inventory	MVE flagship displacement (Ritz-Carlton, via McLarand) + the open-seat glut (OC Vibe, Bolsa Pacific, Related Bristol)
Los Angeles	Cold, patient	Onni re-engagement + the owner-direct NDC seismic-retrofit lane (near-term revenue)

Bay Area	Relationship build	Holland / 3896 Stevens Creek via John Wayland (warm off SD; beat stretched Nelson)
Sacramento	Single live thread	DBRDS / Craig Howard - verify-first (thin pipeline; he's architect, not SE-picker)

4. Cross-cutting opportunity lanes

- NDC seismic-retrofit mid-market - best owner-direct lane. LA + West Hollywood + Santa Monica active mandates where the SE is prime-of-record; target the 4-12 story concrete mid-market the big incumbents skip. \$75-500K/engagement; Year-10 deadlines 2026-2028.
- SB 79 (eff. Jul 2026) + mass-timber Type IV - the growth pipeline. SB 79's 85-ft by-right transit band across all 8 counties is KOR's woodframe/hybrid sweet spot. (Reconcile the mass-timber positioning vs. Glotman's claimed LA CLT first-mover before committing.)
- San Jose soft-story (3,500 bldgs, Oct 2026 screening) - time-sensitive, unsaturated, co-located with the Holland/Westbank Bay action.
- Rule-outs (don't chase as primary): HCAI 2030 hospital seismic (incumbent-gated - Degenkolb / RJC / Saiful / Miyamoto moat); SB 721/326 balcony inspection (past the surge; bundled add-on only).

5. The actionable core - 9 tracked SE seats (live in KorOpportunitiesDb, verified 19 Jun 2026)

Seat	Metro	SE status
Amara Bay (Chula Vista Bayfront)	San Diego	OPEN (Pacifica / AVRP)
5757 Uplander Way (Fox Hills)	Culver City (LA)	OPEN (Link Logistics / KFA)
3896 Stevens Creek Blvd	San Jose	OPEN (Holland - #1 NorCal)
2200 Calle De Luna	Santa Clara	OPEN
2518 Mission College Blvd	Santa Clara	OPEN (Irvine Co. / MVE)
300 S First St	San Jose	OPEN
OC Vibe Residential	Anaheim	held - John A. Martin & Assoc.
Ritz-Carlton Residences	Newport Beach	held - Glotman (displacement target)
1st & Island	San Diego	held - Glotman (Bosa restart 2027-28)

Highlighted: 6 genuinely-open seats. The three 'held' rows are displacement/relationship targets.

6. 8 verified decision-makers (emails Hunter/Apollo-verified, all live)

Contact	Role	Email	Unlocks
John Wayland	Holland EMD, Dev NorCal	jwayland@hollandpartnergroup.com	Stevens Creek (#1 NorCal)

Matthew McLarand	MVE President (Jim's contact)	mmclarand@mve-architects.com	OC Vibe, Ritz-Carlton, Mission College
Michael Eadie	Kennedy Wilson, Development	meadie@kennedywilson.com	the Lindley -> KW conversion
John McCullough	Kennedy Wilson, Multifamily	jmccullough@kennedywilson.com	KW conversion
Pablo Collin	AVRP Assoc. Principal	pcollin@avrpstudios.com	Amara Bay
Ryan Bosa	Bosa President	rbosa@bosadevelopment.com	1st & Island / the Bosa relationship
Chase Ronge	MVE SD Director	cronge@mve-architects.com	MVE San Diego work
Craig Howard	DBRDS Sacramento	craig@dblds.com	the NorCal verify-first thread

7. The play (priority order)

- 1. SD - bank the incumbency.** Lead Bosa with KOR's own 20-yr history (1st & Island restart); convert Kennedy Wilson off the Lindley credential (Eadie / McCullough).
- 2. OC - attack the open glut.** MVE flagship displacement (McLarand, Jim's contact) on Ritz-Carlton; chase OC Vibe / Bolsa Pacific.
- 3. NorCal - start the patient build.** Holland / Stevens Creek via John Wayland while Nelson is stretched.
- 4. LA - owner-direct retrofit for near-term cash,** plus Onni re-engagement.

8. The deep library (for detail)

- Statewide synthesis: bd-ca-statewide-synthesis-2026-06-18.md
