The plays

1. Santa Clara Medical Center (new flagship hospital)

Santa Clara, CA · Healthcare · USD 2,800,000,000 @1.36 (2026-06-02)

ARCHITECT HGA

WINDOW **architect-subconsultant** — already underway — West campus (Phase 2) in design/construction now, opening targeted 2027; structural engineer (Buehler Engineering) already engaged by HGA on the East campus phase

SCHEDULE SEOR: Buehler Engineering (LOCKED via IFOA) - do not chase.

CONTACTS

Craig McInroy — Principal, Vice President & Healthcare Practice Group Leader — Bay Area · CMcInroy@hga.com (asis) · [LinkedIn](#)

Leann Dockins — Healthcare Business Development (National) · LDockins@hga.com (asis)

Craig Blackhurst — Senior Project Manager / Architect of Record — Healthcare · CBlackhurst@hga.com (asis)

THE PLAY Pitch the architect directly — they assemble the consultant team.

verified 2026-07-13 (research <24h old) · [source](#) · Sutter uses IPD-IFOA (Integrated Form of Agreement) with HGA as architect-of-record; HGA/DPR assembled the trade team including structural (Buehler) directly — pitch HGA/DPR, not a public owner RFP.

2. Emeryville Medical Center (new flagship East Bay hospital)

Emeryville, CA · Healthcare · USD 1,000,000,000 @1.36 (2026-06-02)

ARCHITECT SmithGroup

WINDOW **architect-subconsultant** — very early — construction not slated to start until 2029, opening 2033; design team (led by SmithGroup) still forming, structural engagement likely 2027-2028

SCHEDULE SE STATUS: OPEN - pre-design (prelim app Mar 2026); the real Sutter opening. IPD/IFOA: owner selects whole team at inception - KOR must attach to a shortlisted architect (SmithGroup/HGA). Contact Larry Kollerer.

CONTACTS

Bonnie Khang-Keating — Vice President, Director of Strategic Relationships; Director, LA and San Diego Offices · bonnie.khangkeating@smithgroup.com (PatternInferred) · [LinkedIn](#)

Richey Madison — Senior Principal, Higher Education Studio Leader, Southern California · richey.madison@smithgroup.com (PatternInferred) · [LinkedIn](#)

Daniel Cusick — Principal, Health Studio Leader, Los Angeles · daniel.cusick@smithgroup.com (FirmSite) · [LinkedIn](#)

THE PLAY Pitch the architect directly — they assemble the consultant team.

verified 2026-07-13 (research <24h old) · [source](#) · SmithGroup is architect for the \$1B Emeryville flagship campus (Building 8 tower); Sutter's prior projects (e.g. Santa Clara) used IPD with architect/CM assembling structural — expect the same pattern once entitlements clear, so target SmithGroup/likely CM directly rather than a public bid.

3. La Jolla Outpatient Pavilion

La Jolla, San Diego, CA · Healthcare · USD 250,000,000 @1.36 (2026-06-02)

ARCHITECT HGA Architects

WINDOW **design-build** — Construction start spring 2026, operations fall 2028; contractor (Tutor Perini) leads design-build team and procures design-assist/design-build subconsultants including structural now through pre-construction phase

CONTACTS

Craig McInroy — Principal, Vice President & Healthcare Practice Group Leader — Bay Area · CMcInroy@hga.com (asis) · [LinkedIn](#)

Leann Dockins — Healthcare Business Development (National) · LDockins@hga.com (asis)

Craig Blackhurst — Senior Project Manager / Architect of Record — Healthcare · CBlackhurst@hga.com (asis)

THE PLAY Get onto the design-build proponent team — pitch the builder, not the owner.

verified 2026-07-13 (research <24h old) · [source](#) · UC San Diego capital project using design-build delivery — pitch the contractor (Tutor Perini), not the architect of record, for structural sub-consultant slot; UC Regents docs (regmeet/aug24 h1.pdf) confirm project scope/budget but not SE selection.

4. Vancouver General Hospital Campus Redevelopment — Building 1 (Phases 1 & 2) , BC · Healthcare

ARCHITECT Kasian Architecture, Interior Design and Planning

INCUMBENT RJC Engineers (Read Jones Christoffersen) (dominant), Bush, Bohlman & Partners LLP (frequent)

WINDOW **architect-subconsultant** — Pre-design architecture + engineering services RFP already issued (Building 1 / Emergency Department Expansion, In-Patient Tower) requiring pre-qualified structural sub-consultants under the prime design team — active now

SCHEDULE Timeline: 2026–2030; Notes: New 11-storey inpatient and emergency department building on VGH campus; City Council rezoning expected summer 2026 to enable construction start. Long-term 10-phase campus master plan. High structural complexity — underground parking, rooftop helipad, footbridge connection.

CONTACTS

Michael McDonald — Consulting Principal · michael.mcdonald@kasian.com (PatternInferred)

Eric Tran — Associate Architect · Eric.Tran@Kasian.com (asis) · [LinkedIn](#)

Christine Weber — Principal - Interior Design · Christine.Weber@kasian.com (asis) · [LinkedIn](#)

THE PLAY Pitch the architect directly — they assemble the consultant team. Strategic note for a BC structural firm (e.g., KOR) trying to break into Kasian's roster: Kasian's short list is sector-segmented, not random rotation — RJC owns the civic/high-rise/airport-infrastructure lane (Surrey Civic Centre, YVR Link buildings, ONE Water Street Kelowna), Bush Bohlman owns the architecturally-exp...

verified 2026-07-13 (research <24h old) · [source](#) · Structural engineer is procured as a sub-consultant within the architect-led design team (Kasian led the RFP for pre-design A+E services); pitch through the architect/prime consultant response, not directly to VCH.

5. Southern Alberta Compassionate Intervention Centre (Spyhill, Calgary) , AB · Healthcare · 159000000

ARCHITECT B+H Architects

WINDOW **architect-subconsultant** — design phase now, funded via Budget 2026 (\$291M over 2026-29); B+H already named as architect — pitch for SE seat immediately

SCHEDULE Timeline: 2026–2030; Notes: New 150-bed involuntary mental health and addiction treatment facility at Spyhill campus in Calgary. B+H Architects engaged; proposed design stage. Part of \$318.6M provincial commitment. Targeted opening 2030. New institutional building with strong structural engagement opportunity.

CONTACTS

Patrick Fejer — Chief Executive Officer & Head of Design · patrick.fejer@bharchitects.com (PatternInferred)

David Stavros — Director & Principal · david.stavros@bharchitects.com (Hunter) · [LinkedIn](#)

B+H Vancouver Managing Principal — Managing Principal — B+H Architects Vancouver / Principal & Global Design Lead — CHIL Interior Design · bh.principal@bharchitects.com (PatternInferred)

THE PLAY Pitch the architect directly — they assemble the consultant team.

verified 2026-07-13 (research <24h old) · [source](#) · Alberta Infrastructure owns the program but B+H Architects is already the named design lead for the Calgary Spyhill facility; SE would join as B+H's subconsultant.

6. Foothills Medical Centre NICU Expansion

Calgary, AB · Healthcare · \$66M govt + additional foundation funding; total ~\$152M

ARCHITECT Kasian Architecture Interior Design and Planning Ltd.

INCUMBENT RJC Engineers (Read Jones Christoffersen) (dominant), Bush, Bohlman & Partners LLP (frequent)

WINDOW **architect-subconsultant** — design underway now (funded by \$152M Newborns Need collaboration between AHS/Alberta Health/Calgary Health Foundation)

SCHEDULE NICU expansion from 39 to 54 beds (+15 spaces); two-floor vertical expansion. Kasian Architecture confirmed. Structural engineer not yet announced publicly. Construction 2026-2027. KOR should contact Kasian Calgary office to get on team.

CONTACTS

Michael McDonald — Consulting Principal · michael.mcdonald@kasian.com (PatternInferred)

Eric Tran — Associate Architect · Eric.Tran@Kasian.com (asis) · [LinkedIn](#)

Christine Weber — Principal - Interior Design · Christine.Weber@kasian.com (asis) · [LinkedIn](#)

THE PLAY Pitch the architect directly — they assemble the consultant team. Strategic note for a BC structural firm (e.g., KOR) trying to break into Kasian's roster: Kasian's short list is sector-segmented, not random rotation — RJC owns the civic/high-rise/airport-infrastructure lane (Surrey Civic Centre, YVR Link buildings, ONE Water Street Kelowna), Bush Bohlman owns the architecturally-exp...

verified 2026-07-13 (research <24h old) · [source](#) · Kasian Architecture is the named design firm for AHS/Alberta Infrastructure; SE engagement flows through Kasian as subconsultant, not a separate owner tender.

7. NAIT Advanced Skills Centre

Edmonton, AB · Education - Post-Secondary · \$560M

ARCHITECT Dialog + GEC Architecture

INCUMBENT DIALOG (in-house structural — via 2018 Jones Kwong Kishi Engineering merger) (dominant), Glotman Simpson Consulting Engineers (occasional)

WINDOW **architect-subconsultant** — Design team (GEC Architecture + DIALOG) already assembled; PCL Construction named builder ~May 2026, early construction activity starting spring 2026 — structural engagement window has likely already passed/is active now, not a future RFP

SCHEDULE NAIT's largest-ever capital project — a 640,000 square foot Advanced Skills Centre designed to address Alberta's skilled trades shortage. Province committed \$42 million for design and planning. Completion targeted for 2029. Designed by Dialog + GEC Architecture.

CONTACTS

Fadi Ghorayeb — Managing Partner · fghorayeb@dialogdesign.ca (Hunter) · [LinkedIn](#)

Mona Lemoine — Associate, Senior Sustainability Consultant · MLemoine@dialogdesign.ca (asis)

Jim Anderson — Partner, DIALOG · janderson@dialogdesign.ca (PatternInferred)

THE PLAY Pitch the architect directly — they assemble the consultant team. The single most important finding for KOR is not "which outside SE does DIALOG favor" but that DIALOG largely doesn't need one: it bought its own structural engineering capability (ex-Jones Kwong Kishi) into the Vancouver studio and advertises structural engineering as an in-house service, and used it on at least one f...

verified 2026-07-13 (research <24h old) · [source](#) · \$384M provincial funding confirmed May 2026; GEC+DIALOG lead design team, PCL Construction is builder (looks CM-led, not DB) — pitch would go through GEC/DIALOG if structural not yet locked, but team appears far along

8. UCLA 901 Levering Student Housing

Los Angeles, CA · Education · USD 351,000,000 @1.36 (2026-06-02)

ARCHITECT Mithun

WINDOW **design-build** — UC Regents approved project funding/schematic design March 2026; design team forming now (SD phase) ahead of anticipated 2026 construction start

CONTACTS

Craig Curtis — Partner, Director of Emerging Building Technologies, FAIA · craigc@mithun.com (asis) · [LinkedIn](#)

Deb Guenther — Partner · debg@mithun.com (asis) · [LinkedIn](#)

Joe Swain — Associate Principal · joes@mithun.com (asis)

THE PLAY Get onto the design-build proponent team — pitch the builder, not the owner.

verified 2026-07-13 (research <24h old) · [source](#) · Mithun (architect) and PCL Construction described as 'collaborating' — pattern typical of UC progressive design-build; structural likely joins PCL's DB team rather than pure architect-led sub, but not fully confirmed

9. CSU Long Beach Peterson Hall 1 Replacement (Seismic)

Long Beach, CA · Education · USD 190,900,000 @1.36 (2026-06-02)

ARCHITECT Cannon Design

WINDOW **architect-subconsultant** — schematic design underway now; CannonDesign assembling engineering team for PH1 Replacement (Seismic)

CONTACTS

PJ Glasco — Regional Health Market Leader · pglasco@cannondesign.com (PatternInferred)

Juliet Rogers — President — CannonDesign (Canada) · jrogers@cannondesign.com (PatternInferred)

Paul Moskal — Director of Ethics and Compliance · pmoskal@cannondesign.com (Apollo) · [LinkedIn](#)

THE PLAY Pitch the architect directly — they assemble the consultant team.

verified 2026-07-13 (research <24h old) · [source](#) · CSU capital project delivered via traditional owner-architect-consultant model (CPBG-approved); Cannon Design is prime, pitch them directly for structural sub-consultant role.

10. NorQuest College Career Skills Centre — Full Campus Expansion

Edmonton, AB · Education - Post-Secondary

ARCHITECT GEC Architecture

INCUMBENT RJC Engineers (Read Jones Christoffersen) (dominant)

WINDOW **architect-subconsultant** — Prime Consultant RFP live now (planning/design stage funded by \$4M Budget 2025); design-ready target ~2027 construction start

CONTACTS

Michael Chomik — Director of Marketing · michael.chomik@gecarchitecture.com (PatternInferred) · [LinkedIn](#)

Rob Wenarchuk — Partner · rob.wenarchuk@gecarchitecture.com ()

Adrian Benoit — Partner · adrian.benoit@gecarchitecture.com (Apollo) · [LinkedIn](#)

THE PLAY Pitch the architect directly — they assemble the consultant team. Because RJC appears to hold default-partner status on GEC's marquee institutional/sport/education work, a challenger structural firm's best entry point is not head-to-head competition on GEC's flagship design-build or donor-funded jobs (e.g., the SAIT Taylor Family Campus Centre, where GEC is already paired with Bird C...

verified 2026-07-13 (research <24h old) · [source](#) · NorQuest is running a Prime Consultant RFP (GEC Architecture team) — structural role will be a sub-consultant under whichever firm/team wins Prime Consultant; also watch the parallel PM RFP for team-formation signals.

11. North Langford Secondary – New Secondary School

Langford, BC · K-12

ARCHITECT Station One Architects

INCUMBENT Bush, Bohlman & Partners LLP (frequent), CWMM Consulting Engineers Ltd. (occasional)

WINDOW **architect-subconsultant** — pre-design/planning stage now, opening targeted 2030 — design team (incl. structural) procurement expected over next 1-2 years

SCHEDULE Funding: BC Ministry of Education and Child Care – Major Capital | Announced 2025-10 | Procurement Construction start 2027; opening 2030

CONTACTS

Heather Honeycutt — Principal, Architect AIBC · hhoneycutt@soarchitects.com () · [LinkedIn](#)

Kimberly Coleman — Business Development Coordinator · kcoleman@soarchitects.com (PatternInferred)

Justin Dyck — Principal and CEO — Station One Architects (AIBC) · soa@soarchitects.com (Hunter) · [LinkedIn](#)

THE PLAY Pitch the architect directly — they assemble the consultant team. The credit trail is thin and lives on the ENGINEERS' sites, not Station One's -- Station One's own portfolio/job-sheet PDFs strip out consultant names almost entirely, so public visibility into their SE roster is a real information gap, not just an artifact of a small pool. That gap is the opening: a firm like KOR coul...

verified 2026-07-13 (research <24h old) · [source](#) · Province-funded BC K-12 new school; Sooke SD62 procures via standard MOE capital process with Station One Architects as prime — structural will be subconsultant to Station One; monitor SD62 procurement/BC Bid postings for the formal design-team RFP.

12. Smith Secondary School

Langley, BC · education · \$203M

ARCHITECT Thinkspace Architecture

INCUMBENT Bush, Bohlman & Partners LLP (dominant), ASPECT Structural Engineers (occasional)

WINDOW **architect-subconsultant** — design ran through winter 2025, construction underway now, occupancy fall 2027 — structural consultant (Jarvis Engineering) already engaged

SCHEDULE Proposed new 1,900 student secondary school located on Willoughby site with future middle school.

CONTACTS

Allan Francis — Principal · afrancis@thinkspace.ca (Hunter)

David Lee Blanchard — Partner · dleeblanchard@thinkspace.ca (Hunter) · [LinkedIn](#)

Henk Kampman — Principal · hkampman@thinkspace.ca (Hunter)

THE PLAY Pitch the architect directly — they assemble the consultant team. The clearest wedge is NOT trying to dislodge Bush, Bohlman & Partners from Thinkspace's core, repeat K-12 pipeline (Surrey/West Kelowna elementary and secondary schools) - that relationship looks sticky and proven across multiple jobs. Instead, target the categories where Thinkspace visibly rotates consultants: large-s...

verified 2026-07-13 (research <24h old) · [source](#) · Thinkspace Architecture holds the \$200M Smith Campus (middle+secondary) design-build-adjacent contract; Jarvis Engineering is confirmed as structural sub-consultant already — this seat is filled, track for future campus phases only.

13. New Elementary at Roberts (Lord Roberts) Annex Site

Vancouver, BC · Education · 194160000

ARCHITECT McFarland Marceau Architects

WINDOW **architect-subconsultant** — development permit application submitted now (coordinated with BC Hydro substation); design team already assembled, construction timing TBD pending DP approval

SCHEDULE New 3-storey school for 510 students planned to open early 2030s; tied to BC Hydro substation progress

CONTACTS

Marie-Odile Marceau — Co-founder and Senior Architect · mmarceau@mmal.ca (asis) · [LinkedIn](#)

Larry McFarland — President / Principal · lmcfarland@mmal.ca (PatternInferred) · [LinkedIn](#)

Craig Duffield — Design Director / Associate — Architect AIBC, FRAIC, LEED AP · cduffield@mmal.ca (Apollo) · [LinkedIn](#)

THE PLAY Pitch the architect directly — they assemble the consultant team.

verified 2026-07-13 (research <24h old) · [source](#) · VSB new elementary replacing Lord Roberts Annex; McFarland Marceau is prime architect with full consultant team (incl. structural) already named per DP filing — verify current structural firm via DP application before pitching, seat may already be filled.

14. CBE New High School in Cornerstone NE Calgary

Cornerstone, NE Calgary, AB · K-12 · \$151.7M (Alberta Major Projects confirmed)

ARCHITECT Stantec Architecture Ltd.

INCUMBENT Bush, Bohlman & Partners (occasional), RJC Engineers (occasional)

WINDOW **design-build** — P3 contractor/proponent selection underway now (2025-2026); SE joins winning DB team's consultant roster once contractor selected

CONTACTS

Bryan Burston — Associate, Buildings Engineering; Office Leader — Kelowna ·

bryan.burston@stantec.com (asis) · [LinkedIn](#)

Andreas Haase — Senior Associate · andreas.haase@stantec.com (asis) · [LinkedIn](#)

Chris Gill — Principal, Environmental Services · chris.gill@stantec.com (asis)

THE PLAY Get onto the design-build proponent team — pitch the builder, not the owner. Because Stantec self-performs structural engineering in-house on most of its BC institutional/healthcare/education work, the primary opening for an outside SE firm is NOT displacing an incumbent (there isn't a dominant one) — it's positioning for the specific conditions where Stantec goes outside: (1) mass-timber or ot...

verified 2026-07-13 (research <24h old) · [source](#) · CBE Cornerstone HS delivered by Alberta Infrastructure as a P3/DB bundle (paired with Redstone K-4); next step is contractor selection, so pitch the DB proponent team (likely via Stantec or the successful contractor's design partner), not CBE directly.

15. Prince Rupert Middle School Seismic Replacement

Prince Rupert, BC · education · \$126.8M

ARCHITECT KMBR Architects Planners

WINDOW **architect-subconsultant** — already engaged — construction is underway (groundbreaking April 2025, completion targeted Sept 2027), so structural engagement happened in the design phase that preceded groundbreaking

SCHEDULE Design winter 2024-spring 2025; groundbreaking Apr 29, 2025; construction started ~Jul 2025; completion/move-in expected Fall 2027 (some sources say Sept 1, 2027)

CONTACTS

Maryam Tashakor — Principal (recently promoted from Associate), Architect AIBC, RHFAC Professional · mtashakor@kmbrr.com (FirmSite) · [LinkedIn](#)

THE PLAY Pitch the architect directly — they assemble the consultant team.

verified 2026-07-13 (research <24h old) · [source](#) · KMBR Architects Planners leads design for SD52 with VSB Operations as project manager; mass-timber structure implies SE already retained as KMBR sub-consultant — this project is largely past the pitch window since it broke ground.

16. New Housing Building (Park Blocks)

Portland, OR · Education · USD 85,000,000 @1.36 (2026-06-02)

ARCHITECT GBD Architects

WINDOW **architect-subconsultant** — design underway now; construction begins winter 2027, so structural sub-consultant selection by GBD Architects should already be locked in or finalizing shortly

CONTACTS

GBD Principals — Multiple Principals · gbdp@gbdarchitects.com (PatternInferred) · [LinkedIn](#)

Agustin Enriquez V — Principal (AIA, LEED AP) · agustinv@gbdarchitects.com (PatternInferred)

Craig Mendenhall — Principal (AIA, LEED AP) · craigm@gbdarchitects.com (Hunter)

THE PLAY Pitch the architect directly — they assemble the consultant team.

verified 2026-07-13 (research <24h old) · [source](#) · PSU retained GBD Architects (design review already approved) with Fortis Construction as GC; GBD assembles the structural engineering sub-consultant team — pitch GBD, but window may already be closing given design-review approval.

17. Smith Middle School — New School (Smith Campus)

Langley (Willoughby), BC · Education · \$103M provincial investment (part of \$306M joint Smith Campus)

ARCHITECT Thinkspace Architecture Planning and Interior Design

WINDOW **architect-subconsultant** — SE already engaged; under construction, occupancy Sept 2027 — no open window, track for future Langley SD35 work

SCHEDULE Shared campus with Smith Secondary. 900-seat middle school including Neighbourhood Learning Centre for child care. Target September 2027 opening. Thinkspace is architect for both schools.

CONTACTS

Jason J. Mudry — Architect, Senior Associate · jmudry@thinkspace.ca (asis)

Theresa Cleary — Sr Project Manager, Interior Designer, Associate · tcleary@thinkspace.ca (asis)

Allan Francis — Architect, Principal · af Francis@thinkspace.ca (Hunter)

THE PLAY Pitch the architect directly — they assemble the consultant team.

verified 2026-07-13 (research <24h old) · [source](#) · BC Ministry-funded K-12 capital project; Thinkspace holds the design contract for the \$200M Smith Campus (now named statlaw Middle School + Emery Dosdall Secondary) and assembles its consultant team including the SE; project is already under construction (occupancy Sept 2027), so the structural engineer is almost certainly already engaged — this is a relationship/backfill target, not an open pitch window.

18. Calgary Radiopharmaceutical Centre — Foothills Medical Campus (reference — seats closed)

Calgary, AB · Healthcare · \$70M total (\$48.4M Budget 2024 contribution)

ARCHITECT Stantec Architecture Ltd.

INCUMBENT Bush, Bohlman & Partners (occasional), RJC Engineers (occasional)

WINDOW **architect-subconsultant** — under construction, permits/CNSC Stage 3 approval obtained, Stage 4 commissioning anticipated 2027 — seats closed, reference only

SCHEDULE Stantec Architecture + CANA Construction. Under construction, Stage 3 active March 2026. Nuclear Safety Commission license granted. Completion fall 2027. Note: Stantec is doing additional Foothills Medical Centre work — cultivate relationship for future projects.

CONTACTS

Bryan Burston — Associate, Buildings Engineering; Office Leader — Kelowna · bryan.burston@stantec.com (asis) · [LinkedIn](#)

Andreas Haase — Senior Associate · andreas.haase@stantec.com (asis) · [LinkedIn](#)

Chris Gill — Principal, Environmental Services · chris.gill@stantec.com (asis)

THE PLAY Pitch the architect directly — they assemble the consultant team. Because Stantec self-performs structural engineering in-house on most of its BC institutional/healthcare/education work, the primary opening for an outside SE firm is NOT displacing an incumbent (there isn't a dominant one) — it's positioning for the specific conditions where Stantec goes outside: (1) mass-timber or ot...

verified 2026-07-13 (research <24h old) · [source](#) · Stantec engaged directly by Alberta Infrastructure for design/permitting on this cyclotron facility; construction already underway so this is a closed-seat reference project, not an active pursuit.

19. UWMC-Northwest — OPMC OSC Operating-Room Expansion

Seattle, WA · Healthcare · USD 40,900,000 @1.36
(2026-06-02)

ARCHITECT NBBJ

WINDOW **design-build** — Design-build team already selected — Lease Crutcher Lewis (contractor) + NBBJ (architect); OR expansion in design now, SE joins as sub to the DB team, no separate SE procurement expected

SCHEDULE Planning Dec 2025-May 2026; Design May-Dec 2026; Construction Jan 2027-Aug 2028 (per UW Facilities project page)

CONTACTS

Robert C. Mankin Jr. — Managing Partner, AIA · rjr@nbbj.com (PatternInferred)

Molly Wolf — Principal · mwolf@nbbj.com (Hunter)

Andy Snyder — Partner · asnyder@nbbj.com (Hunter)

THE PLAY Get onto the design-build proponent team — pitch the builder, not the owner.

verified 2026-07-13 (research <24h old) · [source](#) · UW procured via RFQ for Design-Build Services; team (Lewis/NBBJ) already selected, so SE is a sub-consultant to that DB team, not a separate bid.

20. University Hospital of Northern British Columbia (UHNBC) Patient Care Tower (Phase 2)

Prince George, BC · Institutional · 1579

ARCHITECT DIALOG BC

WINDOW **design-build** — EllisDon (construction) and DIALOG (design) were announced as preferred proponent in an Alliance Contract with Northern Health/Infrastructure BC; full alliance formed, relocation of Northern Interior Health Unit slated spring 2026 and tower construction starting fall 2026 — structural engineer would already be engaging now as part of the EllisDon/DIALOG alliance team.

SCHEDULE Proposed new 11-storey acute care tower will include a cardiac care unit. The tower will be located on the southeast corner of the UHNBC site.

CONTACTS

no verified contact yet — firm main line

THE PLAY Get onto the design-build proponent team — pitch the builder, not the owner.

verified 2026-07-13 (research <24h old) · [source](#) · Delivered as an Alliance (progressive design-build) with EllisDon and DIALOG as preferred proponent — structural engagement happens through that alliance team now, not a separate owner tender; PML (mechanical) and Houle (electrical) are already named, structural should be pursued via EllisDon/DIALOG directly.

21. UBC Student Housing Complex

Vancouver, BC · Institutional · 560

ARCHITECT Ryder Architecture (architect of record) with 3XN GXN

WINDOW **architect-subconsultant** — design team already selected (Ryder Architecture + 3XN GXN, announced Nov 2024); structural subconsultant engagement would already be underway now, construction starts fall 2026

SCHEDULE Redevelopment of the St. John's College site with 1,508 student beds (1,333 new graduate student beds and 175 replacement beds) in 5 buildings up to 18 stories. Project will include a 400-seat dining hall and a 37 space childcare facility. Funding will be provided by the provincial government (\$300 million), and the University of British Columbia (\$260 million).

CONTACTS

no verified contact yet — firm main line

THE PLAY Pitch the architect directly — they assemble the consultant team.

verified 2026-07-13 (research <24h old) · [source](#) · UBC selected the architect-led team (Ryder + 3XN GXN) for the Lower Mall Precinct Phase One via its design-excellence process; UBC's model is for the winning architect to assemble/lead engineering subconsultants (mass-timber 18-storey tower + 8-storey hybrid), so pitch happens through the architect team, and with construction slated for fall 2026 the structural engineer is very likely already engaged — could not confirm the specific firm from public sources.

22. Centre Block – SFU/Provincial Office Tower

Surrey, BC · Civic / Institutional · \$520M total (Province/SFU share); City of Surrey office component cost TBD

ARCHITECT Hariri Pontarini Architects and Adamson Associates Architects (master plan w/ Urban Strategies); dev

WINDOW **architect-subconsultant** — design team consultants being finalized now; PCL awarded CM pre-construction services Apr 2026, RCP Global as development manager Nov 2025 — structural likely joins Hariri Pontarini/Adamson design team through 2026-2027 as design develops toward the 47-storey East Tower/SFU medical school building

SCHEDULE On former North Surrey Recreation Centre/Arena site (demolition complete). 12-storey building housing SFU Surrey medical school facilities and City of Surrey offices (89,000 sq ft on levels 9–12). Province and SFU cover ~\$520M. City separately funding its own office fit-out. Phase 1 design/construction contract \$10.8M approved 2025. Construction Q4 2026 start; completion fall 2030.

CONTACTS

no verified contact yet — firm main line

THE PLAY Pitch the architect directly — they assemble the consultant team.

verified 2026-07-13 (research <24h old) · [source](#) · Master-planned by Urban Strategies; PCL now CM for pre-con services — SE most likely brought on as architect's structural subconsultant, not yet publicly announced.

23. Sinclair Centre Redevelopment

Vancouver, BC · Institutional · 500

ARCHITECT Chernoff Thompson Architects (Prime Consultant); Local Practice (sustainable design advisor); Franci Architecture

WINDOW **design-build** — P3 proponent teams formed/selected through 2025 bid process, contract awarded 2025; detailed design phase now underway with construction slated to start 2026 (completion 2030-2031)

SCHEDULE 2025-Q4 - 2029-Q4

CONTACTS

Don Brown — Principal, Architect AIBC (Jensen Group / JCTA side) · dbrown@cta.bc.ca (PatternInferred)

Naomi Gross — Principal, Architect AIBC · ngross@cta.bc.ca () · [LinkedIn](#)

Tony Yip — Principal, Architect AIBC · tyip@cta.bc.ca (Hunter) · [LinkedIn](#)

THE PLAY Get onto the design-build proponent team — pitch the builder, not the owner.

verified 2026-07-13 (research <24h old) · [source](#) · P3PC structured this as a P3 with Colliers/Tiree as commercial advisor — structural engineer joins via the winning P3 proponent/builder team, not a direct architect pitch.

24. Foothills Multisport Fieldhouse

Calgary, AB · Civic · 380000000

ARCHITECT GGA Architecture (early amenity study 2023); design consultant selected via 2024 RFP — name not publicly disclosed

WINDOW **owner-direct** — City of Calgary ran its own consultant RFP in 2024 for the pre-design master plan/consultant team; project now in detailed design phase (concluding ~fall 2025), with construction funding (\$109M allocated) still being assembled — watch City of Calgary procurement portal for the next-stage detailed-design/construction RFP

CONTACTS

no verified contact yet — firm main line

THE PLAY Owner procures the SE separately — watch their portal and pitch the capital-projects lead.

verified 2026-07-13 (research <24h old) · [source](#) · City of Calgary procured the design consultant team directly via public RFP (not GGA, whose 2023 amenity study predates this); the 2024-selected consultant name is not publicly disclosed — monitor City of Calgary bid portal for the next RFP wave as funding closes.

25. Smith Area Middle Secondary School

Langley, BC · Institutional · 306

ARCHITECT Thinkspace Architecture

INCUMBENT Bush, Bohlman & Partners LLP (dominant), ASPECT Structural Engineers (occasional)

WINDOW **architect-subconsultant** — design underway now (started under prior contract award), design phase ran to winter 2025/26, construction starting shortly after; occupancy targeted Sept 2027 — SE almost certainly already engaged under Thinkspace's team

SCHEDULE Proposed middle-secondary school for the Smith neighbourhood on 76 Ave. The secondary school will provide 1,900 seats for students and the middle school will see an addition of 900 seats and a Neighbourhood Learning Centre.

CONTACTS

Allan Francis — Principal · afrancis@thinkspace.ca (Hunter)

David Lee Blanchard — Partner · dleeblanchard@thinkspace.ca (Hunter) · [LinkedIn](#)

Henk Kampman — Principal · hkampman@thinkspace.ca (Hunter)

THE PLAY Pitch the architect directly — they assemble the consultant team. The clearest wedge is NOT trying to dislodge Bush, Bohlman & Partners from Thinkspace's core, repeat K-12 pipeline (Surrey/West Kelowna elementary and secondary schools) - that relationship looks sticky and proven across multiple jobs. Instead, target the categories where Thinkspace visibly rotates consultants: large-s...

verified 2026-07-13 (research <24h old) · [source](#) · SD35 awarded design contract directly to Thinkspace as prime; Thinkspace/Make Projects assembles engineering subconsultants — likely too late to pitch SE seat, but confirm via Thinkspace if any consultant gaps remain.
